

# E-engine Series

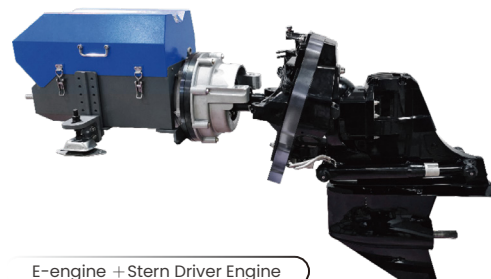

LIVOLTEK

Inboard Motor

67-122HP

E-engine + Gearbox

E-engine + Stern Driver Engine

- 100% electric, zero pollution, low noise
- Efficient permanent magnet synchronous motor with abundant power
- Smart safety system with real-time monitoring
- Precision transmission technology, efficient power transmission
- Easy installation, convenient maintenance, and high adaptability
- Customized solution design

## Application Scenarios

E-engine Series Suitable for large sailboats and motorboats ranging from 60 to 100 feet (18 to 35 meters), as well as high-speed motorboats, with a maximum displacement of up to 200 tons.

Yachts

Work Boats

Cruisers

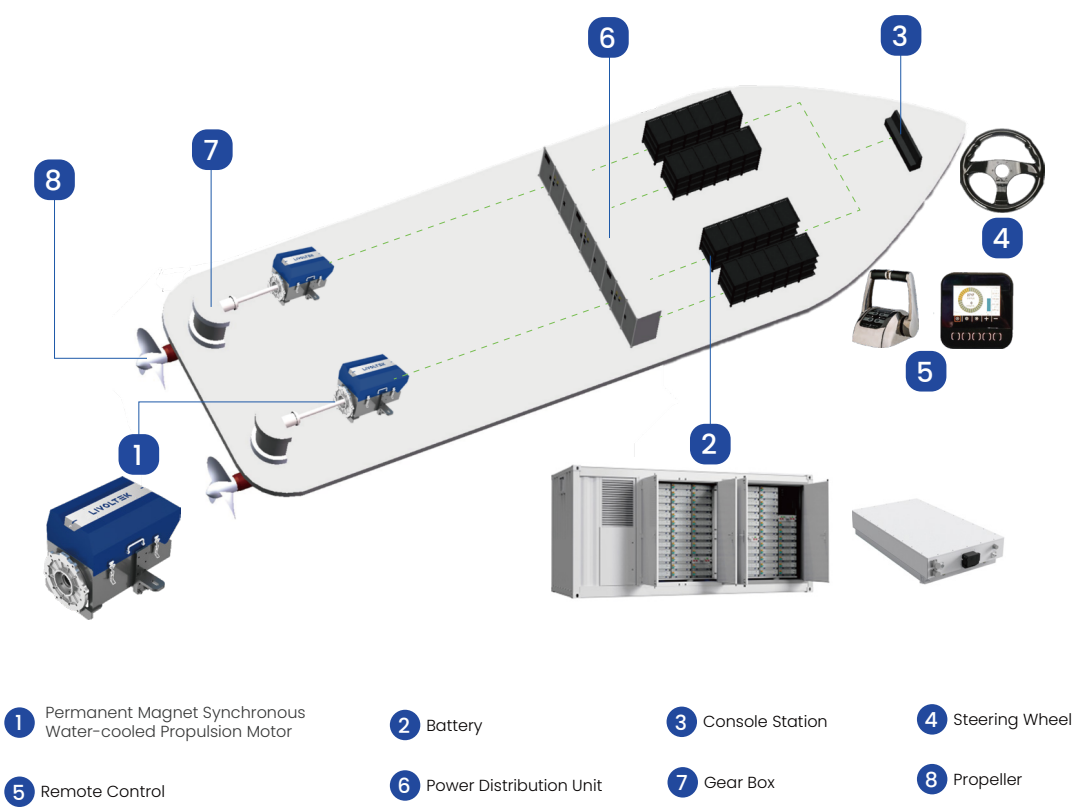

Canal Boats

Water Buses

# Specifications

Model	EEE049	EEE065	EEE090
Input power (kW)	49	65	90
Comparable petrol outboards (HP)	67	89	122
Rated voltage (VDC)	350	550	550
Input voltage range (VDC)	350-720	450-720	450-720
Rated speed (rpm)	3400/3000	3600	4000
Torque (Nm)	215	170	215
Insulation level	H	H	H
Work quota	S9	S9	S9
Protection grade	IP67	IP67	IP67
Weight(kg)	120±5	120±5	120±5
